## SETTING OPERATION MODE (AUTO, HEATING, COOLING, DRY)

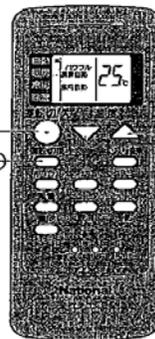

**1** Press .

EACH TIME THE BUTTON IS PRESSED THE OPERATING MODE IS SHIFTED IN THE SEQUENCE SHOWN IN THE DISPLAY:

**2** Press .

The ON indicator will light. The indicator may flash during automatic or heating mode operation.

### TO CHANGE THE TEMPERATURE SETTING

- The temperature setting changes 1°C each time the button is pressed.
  - The adjustable temperature range is 16~30°C.
- Press to increase the temperature setting.  
Press to decrease the temperature setting.

### TO STOP

Press .  
(the 運転 indicator will go out).

## BATTERIES

- The remote control will operate for about one year with new batteries. When the signal fails to reach the same distance, the batteries should be replaced.
- When the battery power lowers, the remote control display will become dim or disappear.
- Replace both batteries at the same time using the same type of batteries.
- Because of possible differences in size, shape, and performance, do not use rechargeable (Ni-Cd) batteries.

## AIR FLOW DIRECTION AND SPEED CONTROL SETTING

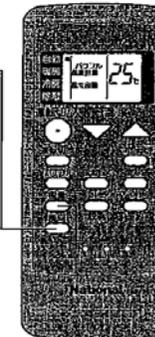

### TO CHANGE THE AIR FLOW UP AND DOWN

Press .

- In addition to 「風向自動(AUTO)」, up / down air flow can be adjusted manually in five steps. The display will change

each time the button is pressed. (The display is a guide to the air flow direction.)

### TO CHANGE THE AIR FLOW SIDE TO SIDE

Manually move the tabs (one each on right and left) to adjust.

### CHANGE THE FAN SPEED

Press .

- In addition to 「風量自動(AUTO)」, the fan speed can be manually adjusted in five steps.

Fan speed increases as the number of indicator segments that are on increases.
