

# Prepare yourself for a typhoon

To ensure the safety of residents during typhoons and strong winds, we would like to encourage everyone to refrain from staying on roadways, sidewalks and other open areas which are prone to falling objects.

Here're the 6 reminders for keeping your home safe from a typhoon.

1. Always keep yourself updated with the latest weather report.
2. Clear up and secure all loose items outside of your home.
3. Remove any and all items that may fall from your walls and windows.
4. Bring all items inside such as a satellite dish and trash cans--anything that can cause damage during a typhoon.
5. Be sure to close the garage door and install the garage door braces on the inside and the outside of the door to avoid typhoon damage.
6. Keep an eye on lighted candles or gas lamps.

Though we can't control the weather, we can definitely lessen its impact on our lives and property. Stay vigilant to remain safe! Thank you for your understanding and cooperation!!

Please report to us by email if there are any damages after the typhoon. Please make sure the email subject includes your name and the name of your house/apartment. In case of emergency, please call 090-1873-2667
